PRESIDENT SPEAKS

"Believe in yourself, have faith in your abilities. Without a humble but reasonable confidence in your own powers you cannot be successful or happy."

It gives me unabating pleasure to learn that the school is on the verge of bringing out the 2nd edition of the much awaited school magazine "SPANDAN".

Whenever I think or talk of Spandan, a sensation runs through my veins. The fact that I could see fruits in the tree, the seed of which my father had sown, fills my heart with ecstasy.

Echoing the sentiments of my column in the previous edition, I can proclaim with pride that the aspects of grit, determination, imagination and creative excellence are truly reflected in my children's efforts.

Writing is an art, a skill, and it can only be acquired and mastered by regular practice and utmost dedication. Spandan is a reflection of the talent and potentiality of our students and teachers.

I am sure, all readers are going to enjoy the palatable dish presented to them.

I extend my heartfelt gratitude and best wishes to the Principal and all who are collectively responsible in bringing out this edition of SPANDAN.

Wish you all a delightful world of imagination.

PEN DROPS..... OF THE VICE PRESIDENT

“Don't let what you can't do stop you from doing what you can do.”

It gives me immense pleasure to learn that the school is bringing out its 2nd edition of the coveted school magazine "SPANDAN".

It's like a dream come true for everyone of us. Needless to say, it is the most satisfying feeling to see the school grow to such magnanimity.

We can have the most dedicated teachers, the most supportive parents, and the best school in the world – but none of it will matter unless all of us fulfill our responsibilities. Unless we as students pay attention to our teachers, listen to our parents and elders, unless all of us work hard towards achieving a common goal, and that is to ensure that we are on the right track, unless we make sure that our tomorrow is better than our today, we won't enjoy the moments of success.

Every single one of us has something to offer or contribute, the thing that we are good at. We have a responsibility to ourselves to discover what that is. That's the opportunity education provides. Our journey has been pleasant, and I am sure, it's going to be even more so in the days to come.

My good wishes are with you all, the young aspirants and their mentors.

Wish you all happy reading.

FROM THE PEN OF VP - FINANCE

Few teachers teach lessons that are so direct, honest and significant. There are possibilities and opportunities as wind, and the wind blows around all of us, but the difference is how you set your sail. My heartiest greetings to all.

My joy knew no bounds on learning that my school, DPS, is all set to bring out the 2nd edition of 'SPANDAN'. Be it students' strength, academic excellence or growth in other spheres, it's so pleasing to find that the institution has grown in leaps and bounds.

Nothing would have been possible without the honest and dedicated efforts of the students as well as the teachers, diligently led by a dedicated and determined Principal, and of course, our ever co-operative parents. I, personally and collectively put on record my heartfelt thanks and best wishes to all who are directly or indirectly associated with the development and growth of the school. May the SPANDAN be felt in every heart.

AVP SPEAKS

If you are waiting for someone else to provide you with an opportunity or design your plan for you, well, be prepared for the worst, cause it's not going to give you much pleasure.

Every now and then we read a book, watch a movie or simply hear a story where we learn something that dramatically changes our life. It's profound when it happens. But as remarkable as it may be, it is also rare and unpredictable.

I have come to realize such special lessons only come when the moment is right. Call it destiny if you want to, but I believe, when the student is ready, the master will appear. And I also believe that we will not move on to the next lesson until we have fully understood, accepted and embraced the last one. Such is the relationship between a teacher and student. I am sure, here in this institution, the relation is of love, care, understanding and affection, the end result being the profound growth of the institution.

I am so pleased that SPANDAN is making its journey into the 2nd edition. I am sure, the contributions will be enriching.

All the very best to team DPS-JC.....

On this happy occasion I convey my greeting to teaching and non- teaching members of the staff of the school, the past and present students and all associated (specially Principal) with this school. FROM THE PRINCIPALS' DESK....

Can we create an educational system which will retain smiles on the faces of our children, throughout the period of their education? Can we make this possible?

Holistic education sounds impressive & it is promised by all schools. The acid test, however lies in what the student can achieve with the help of this education.

We firmly believe that creativity can flower only in an environment of love, care & trust. We are what we think. All that we are arises with our thoughts. Writing is an important tool for thinking, expression & encouraging creativity.

We at DPS-JC believe that every child is unique in nature with varying needs, Therefore by fostering a conducive environment full of love, care & creativity, we instill in our students a desire to learn.

I would like to express my sincere regards & gratitude to the members of school management, the staff & students of DPS-JC for their outstanding contribution & support for bringing out the second issue of "SPANDAN".

I hope, you will be relaxed after going through the pages as reading relaxes the body & calms the mind. It's very important these days, because we seem to have forgotten how to relax & especially how to be silent ? Let's keep going.....Good reading skills.

With Best Wishes

EDITOR SPEAKS HIS MIND.....

“Nothing can stop the man with the right mental attitude from achieving his goal ;
and nothing on earth can help the man with the wrong mental attitude.”

No wonder, time has seen great changes.

In education sector too, over the years, we have seen great changes. The student today is an individual, is a real person with feelings of self-respect, sensitivity, responsibility and compassion. We as elders, well wishers, mentors need to recognize, appreciate, applaud and foster the fine blend of sensibilities in a child – and thus ‘SPANDAN’ – to be viewed as a launch pad for the children’s creative urges to blossom naturally.

As is said - mind like parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

Any institution attains its eminence in the first place through the achievement of children. Spandan also espouses the school spirit which is built up within the school through the collective actions, thoughts and aspirations ultimately resulting in spurring higher growth and enterprise in children.

My heartfelt thanks are due to the Principal, Editorial Board, students and teachers to have been of immense help in breathing life into these pages.

Good luck.....

The Editors

What we think! What we feel! What we want! What we express! Sometimes it becomes difficult to converse all this verbally. Then comes the mighty role of writing. Throwing striking pearls of words on blank paper makes the writer as well as the reader tranquil. Writing is a voice of soul, who desires to speak.

A love for reading can set a person on a trail-blazing search for wisdom transforming him from an under achiever to a super achiever. Welcome to the vital writing world of emotions, feelings, turmoil, imaginations, reality, ideas, opinions, revolutions, sometimes frustration and what not

Once again SPANDAN is ready to offer a great feast for its readers. Each word put by students is not less magnificent than royal buffet. The year 2015-16 has been a year full of great deals of activities in DPS-JC. Our students brought laurels in the school and cultural festivals too. This year witnessed many enthralling moments.

What a marvellous year it has been! Our students excelled in all streams of their personalities, their performances exhilarated everyone who perceived them. Everyone's heart filled with rapture to see students journey from rivulet to river. Students have disentangled their hearts through vivacious words which is enough to shake anyone's single throb. SPANDAN is providing a platform to the coming generation to give a birth to new ideas, opinions and revolutions by thrilling words to make a world of difference.

CONGRATULATIONS !!!!!!!!!!!!!!!

You have also become a part of this intellectual tradition led by SPANDAN.
