## DISCOVERING ONE SELF

27<sup>th</sup> to 30<sup>th</sup> June, 2022

Finding yourself is a lifelong journey of discovery. The horizon of self is always moving and keeps you engaged in the pursuit of evolution by design.

The journey of self-discovery refers to a travel or series of events whereby a person attempts to determine how they feel personally about themselves rather than following the opinions of family, friends, neighbourhood or peer pressure. Nothing is more central to this focus of education. Delhi Public School, Janjgir-Champa always experiences a shift in thinking and action around the learning pathways that students are taking; shift that includes moving towards a 'Students Centric Approach' to education , where the students step away from their traditional role as recipients of core-subject content and move into the driver's seat of their quest to become flexible, nimble thinkers and learners in an increasingly complex society.

In this series, our students from classes II to XII took part enthusiastically in each and every activities like; Drawing/Painting, Paragraph Writing, Abhivyakti, Group Discussion & PPT Presentation and shared their perspective on various elements of transformation. The goal is to ensure that the learning is more relevant and meaningful in students' lives. Our students of class II participated in drawing & painting and they performed outstandingly in a chain of events. Other classes like class III performed paragraph writings, class IV & V went through Abhivyakti, class VI to VIII did their PPT Presentation while class IX to XII Participated in Group Discussion. In order to engage in the rigors of these experiences, we also feel that the students should get to know themselves as learners, what their interests are, and what they may want do in their future. Some students want to be a doctor, some want to be a teacher just like their own loving teachers and so on.

Through structured 'Discovering One Self' opportunities and reflection in the process, students become acquainted with what they learn. This insight allows them to focus on their strengths while adding and monitoring strategies to become better learners. Through this process, we believe that our students will be better prepared to face the challenges and find solutions for real-life problems.

**BHASHA SANGAM**08<sup>th</sup> & 10<sup>th</sup> August, 2022

Bilingualism is an incredible gift for a child. It goes just beyond learning another language. It broadens the mental development, thought patterns and world perspective.

To celebrate these unique features of our country, the Bhasha Sangam initiative under the "Ek Bharat Shreshtha Bharat" ushers in a programme for schools and educational institutions to provide multilingual exposure to students in Indian languages listed in Schedule VIII of the Constitution of India. The learning of language, as we know, is fundamental to all learning and harmonious development of young children into citizens of a country. Learning many languages in school and in society is common in our country and almost all Indians are multilinguals. The multilingual characteristics of the country is reflected in school education as well. The school curriculum advocates learning of many languages. To flourish this thought, DPS-JC has also started the activity of Bhasha Sangam from 08th to 10th August, 2022 for the students. Bhasha Sangam is yet another effort in moving towards achieving the true goal of education and also realizing the vision of the Indian Constitution. This programme of Bhasha Sangam is taken in all seriousness and implemented in schools to achieve the goals of education. Every month our students take part in this activity by enacting or by showing the culture of different states. DPS-JC started the activity from its own state i.e. Chhattishgarh and successfully presented the language and its culture. This contains five commonly used simple sentences in all the 22 languages. The sentences are spoken and practised in the school assembly and in the classroom. In the morning assembly, the students are asked to repeat the sentences. The main goal of this activity is to introduce students to all the 22 Indian Language of Schedule VIII of the Constitution of India and to enhance linguistic tolerance and respect, and promote national integration.

**TRAINING SESSION ON CLASSROOM MANAGEMENT, AND EFFECTIVE COMMUNICATION**12<sup>th</sup> August, 2022

"Teachers can change lives with just the right mix of chalk and challenges."

-Joyce Meyer

A teacher has to impart knowledge and enlighten students toward better careers. Teaching is a profession that involves constantly motivating students to give their best. In order to achieve their teaching goals in a better way, effective teachers should also act as effective classroom managers and effective communicators. In a successful classroom management and effective communication, students need are at the heart of the teaching process. So to enhance the quality of the teachers our school DPS-JC organized a training session on classroom management and effective communication on 12th August, 2022. Mr. John Nogueira, International Trainer and Motivational Speaker was the resource person of the day. The program began with the welcoming of the resource person and the principal Mrs. Kalpana Singh. The session was conducted by Mr. John Nogueira, an ELT Spoken English Trainer from Trinity College London. According to him the effective classroom management strategies and skills of communication are essential even for the most talented teachers. Learning simply cannot occur alongside misbehaviour and chaos. Instructions flourish upon leading a classroom environment that promotes a collaborative community, encouraging student's voice, creativity, leadership, critical thinking and effective teamwork. By taking part to this training course on effective classroom management and effective communication, our teachers had learnt how to include reflective moments and peer-education in one's teaching practice in order to monitor and improve classroom behaviours.
